

Executive Profile: Full-Stack Developer with 3+ years of production experience designing and building high-performance, accessible web systems end-to-end. Specialized in **Next.js 15 (App Router)**, **React 19**, **TypeScript**, **Node.js**, and relational databases (PostgreSQL, Prisma ORM). Track record of cutting p95 load times by 75%, scaling multi-tenant SaaS architectures, and shipping pixel-crafted, responsive user interfaces.

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer @ Nimbus Labs

Feb 2024 – Present

Remote · SaaS Analytics Platform (12k+ MAU)

- Architected the platform migration from legacy monolithic services to a modular **Next.js App Router + tRPC** stack, reducing p95 load times from **3.2s to 0.8s**.
- Engineered scalable database schema and query optimizations with **PostgreSQL & Prisma ORM**, handling over 2.4M monthly data points.
- Designed and maintained a unified internal design system with 100% WCAG AA accessibility compliance and micro-animations.
- Mentored junior developers, spearheaded agile development cycles, and established automated CI/CD pipelines on Vercel.
